- [Attaching the diploma to the course](#)
- [Creating a certificate](#)
- [Attaching the certificate](#)
- [Automation of certificate renewal](#)
- [Issue an award to a learner manually](#)

Creating a diploma

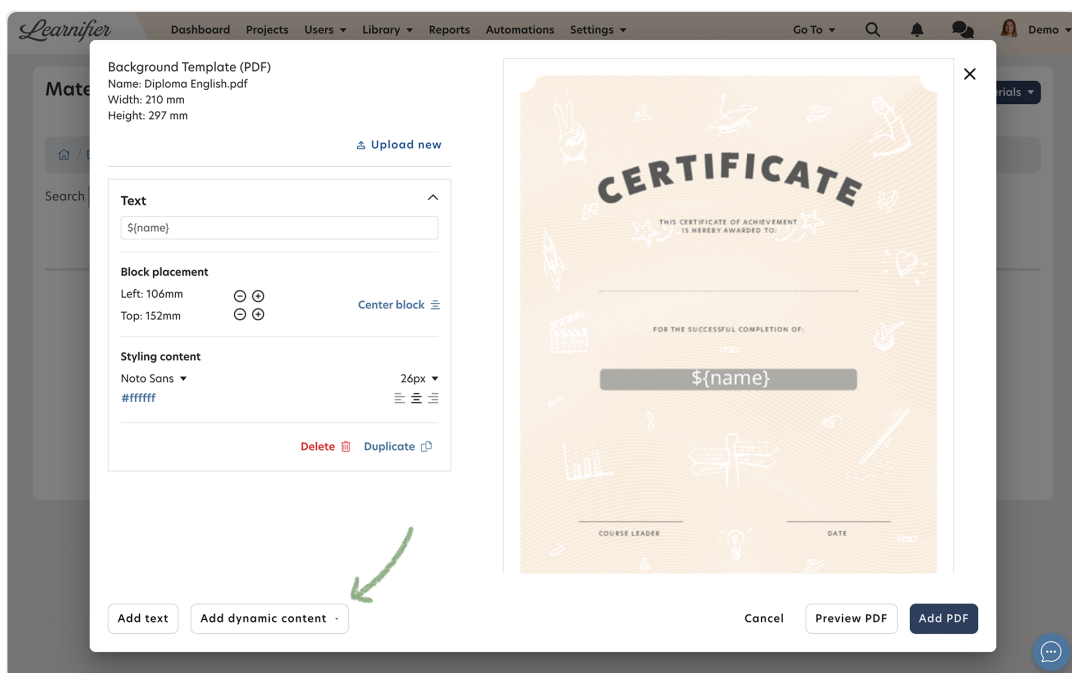

1. To create a personalized diploma, go to the Library → Materials and click on "Add Materials" → Diploma".

1. Name your diploma, add a description, and select regional formatting.

1. Click on "Create PDF" and add the PDF file.
2. Make your diploma personalized by adding dynamic content. For example, add the variable "Name" and place it wherever you want. This will automatically generate the name of the receiving participant. You can also add, for example, "Project name" as well as the date and instructor name. Furthermore, you can brand the diploma content by changing font, size, and color. Note: it is also possible to add a static text block (content that will not change depending on who receives the diploma).

1. Preview the diploma by clicking "Preview PDF"

2. All done!

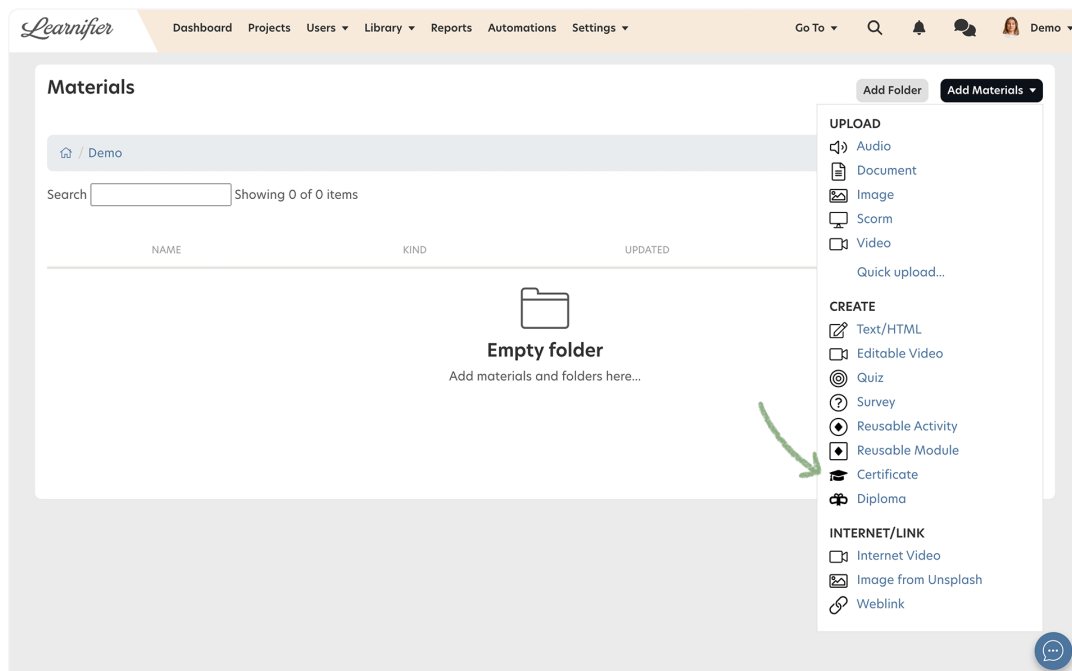

Attaching the diploma

- Go to the course and the tab "Overview".
- Under "Awards", click "Attach" and choose your diploma.

When a participant has completed the course, a banner that says "**Congratulations, you have completed this course. View your award.**" will be shown which they can click on to view their award. They can always return to "Awards" to find all their diplomas and certificates.

Creating a certificate

1. Go to the library → Materials and click "Add Materials" → Certificate.

1. Name your certificate and active "Expiration of certificate" if you wish the certificate to be valid for a specific number of months. If "Expiration of certificate" is activated, enter when you wish a notification should be sent to the learner. Select regional formatting and add a PDF file with personalized content (not mandatory).

The screenshot shows the 'Create Certificate' modal in the Learnifier interface. The modal has a sidebar with four tabs: 1. Certificate Info (selected), 2. Auto re-enrollment, 3. Communication, and 4. Summary. The main content area for 'Certificate Info' includes:

- Certificate Name:** A text input field containing 'Introduction course'.
- Expiration of certificate:** A toggle switch set to 'ON'.
- Certificate will expire in:** A dropdown menu set to '12 months'.
- A notification will be sent:** A dropdown menu set to '30 days' before the certificate expires.
- Notify:** Checkboxes for 'Learner' (checked), 'Admin', 'Team Manager', and 'Project Team'.
- Regional Formatting:** A dropdown menu set to 'English (United States)'.
- Create PDF:** A button to generate a PDF document.
- Description (optional):** A large text area for an optional description.

At the bottom right of the modal are 'Close' and 'Next' buttons.

1. Go to the tab “Auto re-enrollment” and switch it to ON if you wish the participant to be automatically re-enrolled to a course upon certificate expiration (expiration of certificate must be turned on for this to work). Choose which course the learner should be enrolled in and how many days prior to the certificate expiration the enrollment should occur. You can also attach the certificate you are creating to the selected course directly in this view to work more efficiently.

The screenshot shows the 'Create Certificate' modal in the Learnifier interface, with the 'Auto re-enrollment' tab selected. The sidebar shows the same four tabs, with 'Auto re-enrollment' now highlighted. The main content area for 'Auto re-enrollment' includes:

- Auto re-enroll:** A toggle switch set to 'ON'.
- Auto re-enroll OFF:** Text explaining that the administrator needs to manually re-enroll learners.
- Auto re-enroll ON:** Text explaining that re-enrollment will be automatic when the certificate expires, and instructions to select a course and activate the 'Attach this certificate to the selected course' option.
- Re-enroll learner to:** A dropdown menu set to 'Introduction to Learnifier'.
- Re-enroll learner to:** A dropdown menu set to '30 days' before certificate expires.
- Attach this certificate to the selected course:** A checked checkbox.

At the bottom right of the modal are 'Close', 'Back', and 'Next' buttons.

1. Lastly, you can create automated communication with personalized variables, if you wish to engage the learner, team manager, or administrator in the learning journey.

Reenroll to: Introduction to Learnifier 30 days before certificate expires.

Attach certificate to selected course: Yes

Communications

Your certificate is expiring. Send notification to user 30 days before certification expires.

Close Back Add Certificate

Attaching the certificate

1. Go to the course and the tab "Overview".

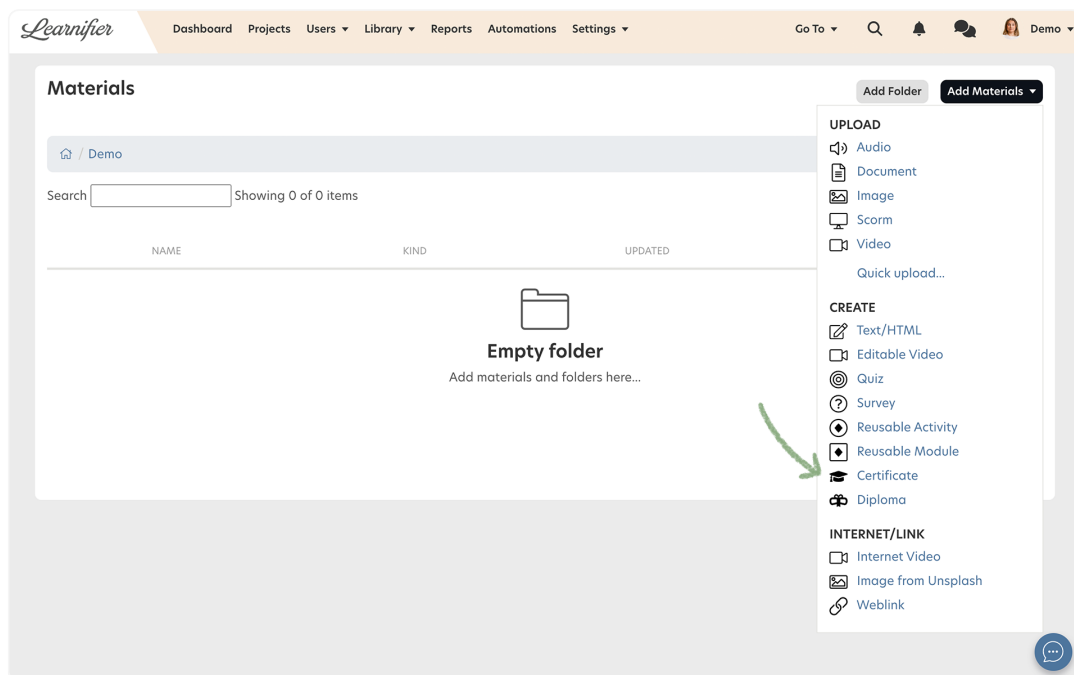

2. Under "Awards", click "Attach" and choose your certificate.

When a participant has completed the course, a banner that says "**Congratulations, you have completed this course. View your award.**" will be shown which they can click on to view their award. They can always go back to "Awards" to find all their diplomas and certificates.

Automation of certificate renewal

Automation of certificate renewal is a function where the system automatically enrolls learners in a new course (or the same) a set amount of days before the certificate expires.

1. Go to the tab "Library" → "Materials".
2. Click on "Add material" → "Certificate".

1. Set a title and activate "Expiration of certificate". Choose the duration of the certificate and when a notification should be sent to the learner, and if you also wish to notify the administrator or team manager.

The screenshot shows the 'Create Certificate' dialog with the 'Certificate Info' tab selected. The 'Certificate Name' is 'Introduction course'. The 'Expiration of certificate' toggle is set to 'ON'. The 'Certificate will expire in' is set to '12 months'. A notification will be sent '30 days' before the certificate expires. The 'Notify' section has checkboxes for 'Learner' (checked), 'Admin', 'Team Manager', and 'Project Team'. The 'Regional Formatting' is set to 'English (United States)'. There is a 'Create PDF' button and a 'Description (optional)' text area. The 'Next' button is highlighted.

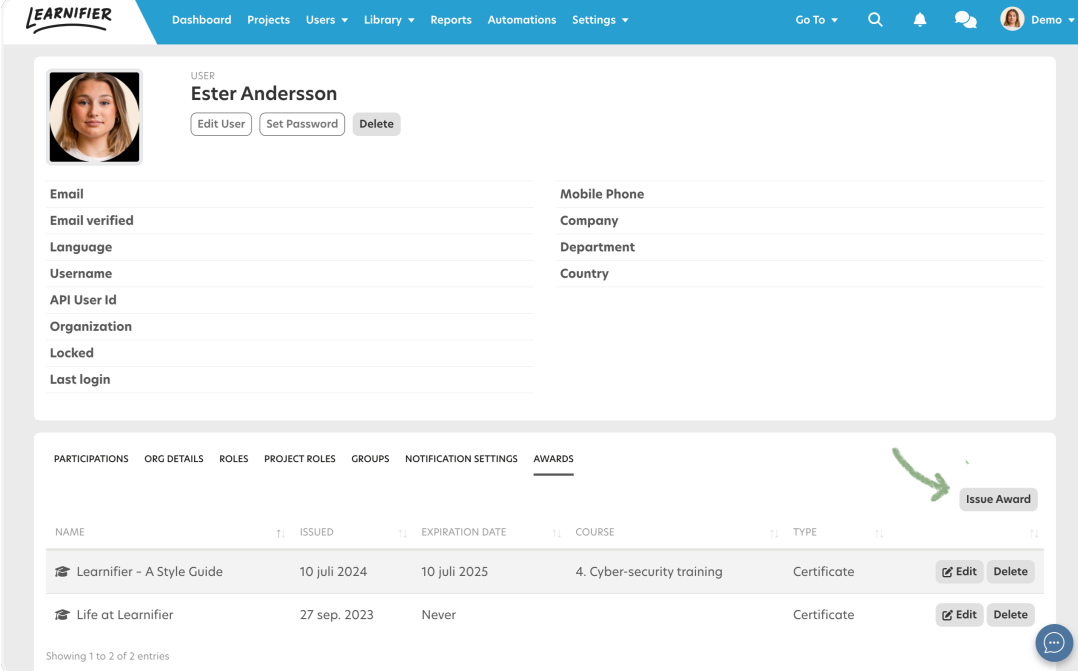

1. Go to the "Auto re-enrollment" tab and switch to ON. Select the course you wish to re-enroll the learner in when the certificate is expiring in x days.

The screenshot shows the 'Create Certificate' dialog with the 'Auto re-enrollment' tab selected. The 'Auto re-enroll' toggle is set to 'ON'. Below the toggle, there is explanatory text for both 'OFF' and 'ON' states. The 'Re-enroll learner to' section has a dropdown menu set to 'Introduction to Learnifier' and a '30 days' field. The checkbox 'Attach this certificate to the selected course' is checked. The 'Next' button is highlighted.

1. Go to the "Communication" tab in the project menu if you wish to personalize communication relating to the certificate expiration, in addition to the general notification.
2. All done!

Issue an award to a learner manually

1. Go to the “Users” tab and click on a user.
2. Go to the “Awards” tab and click “Issue award”.
3. Choose the award you wish to issue.

The screenshot shows the Learnifier user interface. At the top is a blue navigation bar with the Learnifier logo and various menu items: Dashboard, Projects, Users, Library, Reports, Automations, and Settings. On the right of the bar are links for 'Go To', a search icon, a notification bell, a chat bubble, and a user profile icon labeled 'Demo'. Below the navigation bar, the main content area is divided into two sections. The top section is the user profile for 'Ester Andersson', showing a profile picture, a 'USER' label, and buttons for 'Edit User', 'Set Password', and 'Delete'. Below the profile picture are two columns of user details: Email, Email verified, Language, Username, API User Id, Organization, Locked, Last login, Mobile Phone, Company, Department, and Country. The bottom section is the 'AWARDS' tab, which contains a table of issued awards. A green arrow points to the 'Issue Award' button in the top right corner of this section. The table has columns for NAME, ISSUED, EXPIRATION DATE, COURSE, TYPE, and actions (Edit, Delete). It lists two awards: 'Learnifier - A Style Guide' and 'Life at Learnifier'. At the bottom left of the awards section, it says 'Showing 1 to 2 of 2 entries'. A blue circular button with three dots is located in the bottom right corner of the main content area.
