Copy a project

Ester Andersson - 2024-05-22 - [Tips & Tricks](#)

To copy a project, please follow these steps:

1. Click on the course you wish to copy.
2. Click on "Copy".

The screenshot shows the Learnifier interface for a project titled "Customer Success Playbook". The interface includes a navigation bar with options like Dashboard, Projects, Users, Library, Reports, Automations, and Settings. Below the navigation bar, there are tabs for Overview, Participants, Waitlist, Course Page, Events, Assignments, Details, Communications, Reports, and Settings. The main content area displays the project title (ADMIN) and course title (LEARNER) as "Customer Success Playbook". It also shows the creator (Demo Ester) and the update date (onsdag 16 augusti 2023). A row of buttons includes "Edit course", "Preview", "Delete", and "Copy", with the "Copy" button circled in green. Below this, there is a section for "2 participants" with a status of "Ongoing". This section contains three circular progress indicators: "Not Started" (0), "On Track" (2), and "Completed" (0). To the right, there is an "Awards" section with an "Attach" button and a table showing an award for "Introduction to Learnifier" with a 6-month expiration and a certificate type. Below the awards, there is a "Next Course" section with an "Add Next Course" button.

1. Remember: if you have the course catalog turned on, the copy will automatically be connected to the original course and if both courses are live in the catalog, they will be displayed in the same collection.
