

How to set up SCIM

Ester Andersson - 2024-09-06 - API, SAML, integrations and general settings

To follow the instructions below, ensure you've received the secret token from Learnifier.

1. Go to Azure and open Microsoft Entra ID.
2. Locate "Enterprise applications".

1. Select "New application".

Home > Default Directory | Enterprise applications > Enterprise applications

Enterprise applications | All applications ...

Default Directory

◊ ◀ + New application ↻ Refresh ⬇ Download (Export) ⓘ Preview info ☰ Columns 📄 Preview features 🗨 Got feedback?

1. Create your own application, name the app, and select "Integrate any other application you don't find in the gallery (non-gallery)".

Create your own application ×

 Got feedback?

If you are developing your own application, using Application Proxy, or want to integrate an application that is not in the gallery, you can create your own application here.

What's the name of your app?

✓

What are you looking to do with your application?

Configure Application Proxy for secure remote access to an on-premises application

Register an application to integrate with Microsoft Entra ID (App you're developing)

Integrate any other application you don't find in the gallery (Non-gallery)

We found the following applications that may match your entry
We recommend using gallery applications when possible.

Manage → Provisioning:

1. Provisioning mode: "Automatic"
2. Admin credentials:
3. Tenant URL: "https://kund.learnifier.com/api/scim"
4. Secret token: "API key"
5. Test the connection.

Provisioning Mode: Automatic

Use Microsoft Entra to manage the creation and synchronization of user accounts in JK SCIM based on user and group assignment.

Admin Credentials

Admin Credentials
Microsoft Entra needs the following information to connect to JK SCIM's API and synchronize user data.

Tenant URL *

✖ This field is required.
✖ Incorrect format

Secret Token

Test Connection

Mappings

Mappings
Mappings allow you to define how data should flow between Microsoft Entra ID and customappsso.

Note: If there is an error during synchronization, you can set up notifications for who should receive messages.

Next step after saving:

1. Go to "Mappings".
2. Set up groups and users that you want to transfer.

Home > Enterprise applications | All applications > JK SCIM | Provisioning >

Attribute Mapping ...

Save Discard

Name: Provision Microsoft Entra ID Groups

Enabled: Yes No

Source Object: Group

Source Object Scope: All records

Target Object: urn:ietf:params:scim:schemas:core:2.0:Group

Target Object Actions:

- Create
- Update
- Delete

Attribute Mappings

Attribute mappings define how attributes are synchronized between Microsoft Entra ID and customappsso

customappsso Attribute	Microsoft Entra ID Attribute	Matching precedence	Edit	Remove
displayName	displayName	1	Edit	Delete
externalId	objectid		Edit	Delete
members	members		Edit	Delete
