New in Reports: Pagination & Search

2026-01-23 - Gabriella Eriksson - Product Highlight

When reporting is easier to work with, it becomes easier to follow up, analyze, and act on the right insights. With paginated reports, you can now get a complete overview directly in Learnifier and browse through the full report result in the interface, even when working with large data sets, without extra steps.

What's new?

Paginated reports

You can now navigate through the entire report result inside Learnifier, regardless of its size.

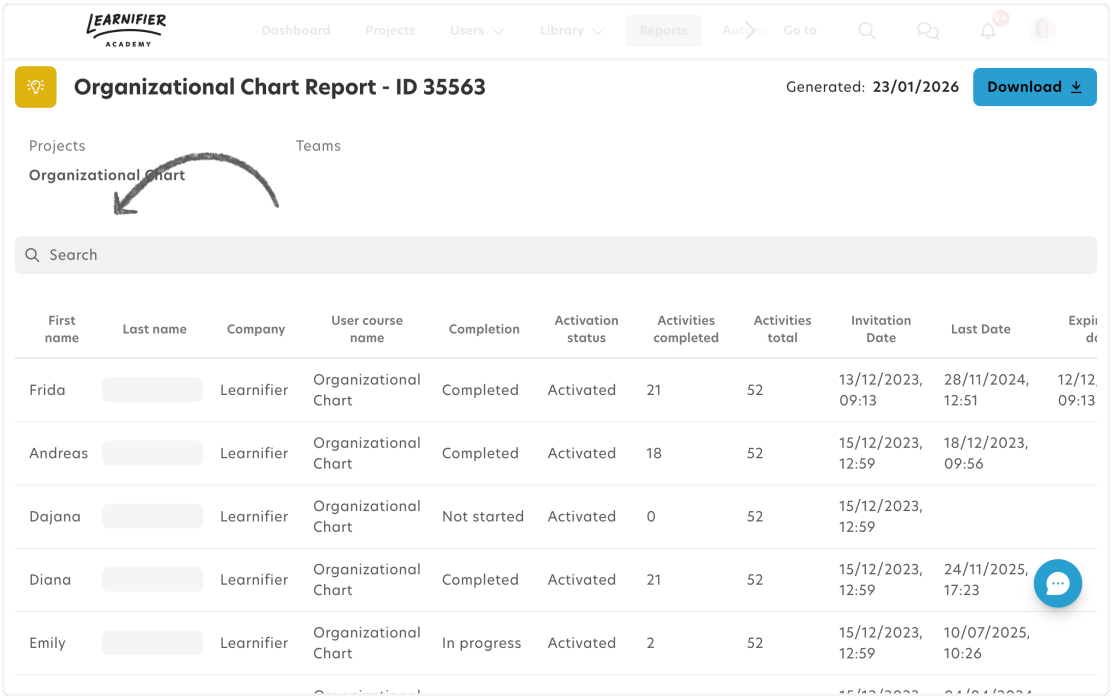

Search in reports

A built-in search field will make it easy to quickly find a specific person or record and view the result instantly, without needing to download anything.

Why it matters

- Find the right information faster
- Avoid unnecessary downloads and manual work
- Get a clearer overview, even in large reports
- Work more efficiently with follow-up and analysis

Try today and get full visibility into your reporting directly in Learnifier!
