Streamlined User Management with SCIM

2024-10-04 - Gabriella Eriksson - Product Highlight

The SCIM protocol simplifies and automates user management, driving efficiency for your organization.
If you're using an identity provider like Microsoft Entra ID, you can now take advantage of SCIM without the need for custom integrations.

The Value for You:

- **Automated User Management:** User changes—additions, updates, or deactivations—are instantly reflected in Learnifier.
- **Increased Security:** Ensures that the right people always have access to the right resources.
- **Less Manual Work:** Simplifies administrative tasks, saving time.
- **Quick and Easy Integration:** Fast setup with your existing system, no complex development needed.

To enable SCIM for your organization, reach out to your Learnifier contact or our **support team**.
