Quiz & survey reports

2024-01-11 - Ester Andersson - Product Highlight

A recent update introduces cross-project insights, making it easier to share quiz and survey reports. This feature simplifies data analysis, offering a clearer view of project progress and highlighting areas that need attention. Designed to enhance teamwork, organizations can now make targeted improvements where they matter the most.

To find the function, go to the “reports” tab.

The screenshot displays the LEARNIFIER web application interface. At the top, a navigation bar includes the LEARNIFIER logo and menu items: Dashboard, Projects, Users, Library, Reports, Automations, and Settings. To the right of the navigation bar are utility icons: a search icon, a notification bell, a chat icon, a user profile icon, and a Demo dropdown. The main content area is titled 'Reports' and contains a sub-header 'Reports'. Below this, there is explanatory text: 'These are the reports you can generate. Live reports can be retrieved on-the-fly. Scheduled reports can take a while to process behind the scenes.' Under the heading 'LIVE REPORTS', a list of report types is shown: Bounced emails and activation errors, Client administrators, List all users, Project activity overview report, Project administrators, Quiz report (circled in green), Survey report (circled in green), User Awards, and User Teams. At the bottom right of the content area, there is a 'GENERATED REPORTS' button with a speech bubble icon.
