Celebrating our partnership with From One to Another

2024-06-10 - Ester Andersson - Product Highlight

We are excited to announce our new partnership with From One to Another, a non-profit organization that works to ensure every girl has the right to education. From One to Another builds capacity, motivation, and knowledge by providing scholarships and establishing women's centers. Their Circle of Education model ensures sustainable community development, supported by their partnership with the Kenyan NGO, Project Nikumbuke.

Each year, From One to Another awards scholarships to hundreds of Kenyan girls, covering a significant portion of their high school fees. They also run 20 women’s centers in southern Kenya, offering training in literacy, English, mathematics, entrepreneurship, and more. These centers empower mothers to support their daughters' education and contribute to their communities

Collaborating with From One to Another will amplify our efforts to support education and sustainable development. Through our collaboration, we've empowered 10 girls this year alone, fostering exponential learning opportunities. Together we’re making a difference, one scholarship at a time!
