Release Feb 22, 2024

2024-02-21 - Ester Andersson - Release notes

Learner & Integration:

- Update skeleton color for better contrast
- Add date to Expired status label
- Event tracking
- Translations to Swedish for fe-learner-courses

Admin:

- Add "Search" and "preferred option" capabilities to the timezone selector.
- Add Project: "Course title" is read from the wrong field
- Module and Activity are not visible when importing from the library
- Weakened permission to edit project categories in the catalog
