

Auto-enrollment upon course completion

Ester Andersson - 2024-10-27 - Functions

Auto-enrollment upon course completion is a function that lets the system automatically enroll a learner in a new course when another course is completed.

1. Go to the course you want your learners to complete to be enrolled in another.
2. Under "Next course", click "Add next course". Choose the course your learners should be enrolled in.
3. Create an automated communication in the next course to let the system automatically send a welcome email to all registered participants (not mandatory).
4. Your learners now have access to the course!

The screenshot shows the 'Introduction to Learnifier' course page. The top navigation bar includes 'Dashboard', 'Projects', 'Users', 'Library', 'Reports', 'Automations', and 'Settings'. The course title is 'Introduction to Learnifier', created by Demo Ester on May 29, 2023, and updated by Demo Ester on May 30, 2023. The course status is 'Ongoing'. The '9 participants' section shows a progress chart with 5 'Not Started', 3 'In Progress', and 1 'Completed'. The 'Next Course' section has a green arrow pointing to the 'Add Next Course' button. The 'Awards' section has an 'Attach' button. The 'Project Team' section has an 'Add Team Member' button. The 'Announcements' section is at the bottom right.
