

Auto-enrollment upon course completion

Ester Andersson - 2024-10-27 - Functions

Auto-enrollment upon course completion is a function that lets the system automatically enroll a learner in a new course when another course is completed.

1. Go to the course you want your learners to complete to be enrolled in another.
2. Under "Next course", click "Add next course". Choose the course your learners should be enrolled in.
3. Create an automated communication in the next course to let the system automatically send a welcome email to all registered participants (not mandatory).
4. Your learners now have access to the course!

The screenshot shows the 'Introduction to Learnifier' course page. The top navigation bar includes 'Dashboard', 'Projects', 'Users', 'Library', 'Reports', 'Automations', and 'Settings'. The course title is 'Introduction to Learnifier' with a status of 'Ongoing'. It was created by Demo Ester on Monday, May 29, 2023, and updated by Demo Ester on Tuesday, May 30, 2023. The page features several sections: '9 participants' with a progress chart showing 5 Not Started, 3 In Progress, and 1 Completed; 'Awards' with an 'Attach' button; 'Next Course' with an 'Add Next Course' button (highlighted by a green arrow); 'Project Team' with an 'Add Team Member' button; and 'Discussions' with a 'Share your thoughts' input field and a 'Post' button. The 'Announcements' section is also visible at the bottom right.
