Build better Flashcards faster

2026-06-09 - Gabriella Eriksson - Product Highlight

Creating beautiful, consistent Flashcards is now easier than ever. The Flashcard editor now includes five ready-made templates to help you get started faster and create content that looks great across all devices.

What's new

- Five ready-made templates for Flashcards
- Easier to create a consistent design throughout your training
- Improved support for different screen sizes and resolutions
- Continued flexibility to customize colors, images, and visual elements

Automatic update

Existing Flashcards will be automatically converted to the new structure. All content and customizations will be preserved while giving you access to the latest improvements.
