Learnifier Content is now live!

2023-12-01 - Ester Andersson - Product Highlight

Many of you have expressed the need for ready-made content for your training initiatives in Learnifier, and we are delighted to inform you that we have heeded your requests and are now launching Learnifier Content!

With Learnifier Content, you will have access to an extensive collection of pre-produced courses in areas such as GDPR, workplace safety, security, ergonomics, and the Office suite, all provided directly within Learnifier through Sweden's leading online education provider, Diploma.

Currently, there are over 500 courses available in Swedish in 19 different categories. There are also 6-8 new courses per month completely free of charge for everyone with the Premium (all access) plan. You can edit these courses as usual within Learnifier, allowing you to easily customize them to meet your specific needs and create the learning experiences that best suit your organization. There's something for everyone – always.

The pricing for Learnifier Content varies depending on the number of users and the specific courses you choose to subscribe to. It will be available starting from the Professional pricing plan. If you opt to subscribe to the entire course library, which includes over 400 courses, you will be able to do so at a highly advantageous package price.
