The new Learner Homepage is here

2026-09-16 - Gabriella Eriksson - [Product Highlight](#)

Learning becomes easier when it's clear what matters, what needs to be done, and what to do next. At the same time, discovering something new should be easy, helping spark curiosity and a desire to learn more.

That's exactly what the new Learner Homepage is designed to do.

It gives learners a clearer overview and makes it easier to navigate their learning, from seeing what needs attention and continuing ongoing courses to discovering new content.

Everything in one place

Depending on the features used in your Learnifier environment, the homepage can give learners a quick overview of **course engagement, ongoing courses, items that need attention, highlights, and new content.**

The new Learner Homepage is now available to everyone and serves as the starting point for learners when they log in!

Want to learn more about how the Learner Homepage works?
