Updates & Improvements: LIVE now!

2025-02-04 - Gabriella Eriksson - Release notes

Manager Feedback on Enrollment Denials

We’ve improved the manager feedback process when denying a team member’s course enrollment request.

- **New Notification Alert:** When a manager denies an application, the participant will now receive a notification alert under “Notifications” in the header.
- **Visibility in Notification Panel:** Participants can view the manager’s feedback directly in their notification panel.This ensures better communication and transparency in the enrollment process.

Enhanced Project Communication

Using email templates saves time and enables quick configuration of communications without starting from scratch.We've improved project communication by making Email Templates available for all audiences:

- **Instructors**
- **Project Team**
- **Team Manager**
- **Email recipients**

Visual Updates to the Admin Interface

We've made minor visual enhancements to ensure consistency between the Admin UI and the Learner UI. Updates include:

- **Support for wider screens (1920px)**
- **Subtle background color adjustments**
- **Restyled page titles and buttons to match the Learner UI**
- **Unified table design for a more cohesive look**
- **Refined button styling, including small and secondary buttons**

Improved User Information Page

- **New "Completed" column on the user information page**, showing completion dates for better tracking and oversight.
