

Slå sammen kursmaler i Backoffice

Gabriella Eriksson - 2024-10-28 - Tips & Tricks

For å forenkle kursutviklingen og maksimere verdien av premium-innhold, kan backoffice-administratører utnytte eksisterende maler for å trekke inn aktiviteter, moduler, ressurser og automatiserte kommunikasjonsflyter.

Purpose & Goals

We want to help you hit the ground running!

This course is your introduction and guide to our company. We will provide you with all the information you need to get started as smoothly as possible. From our history and vision to the tools you will use daily - everything is presented here.

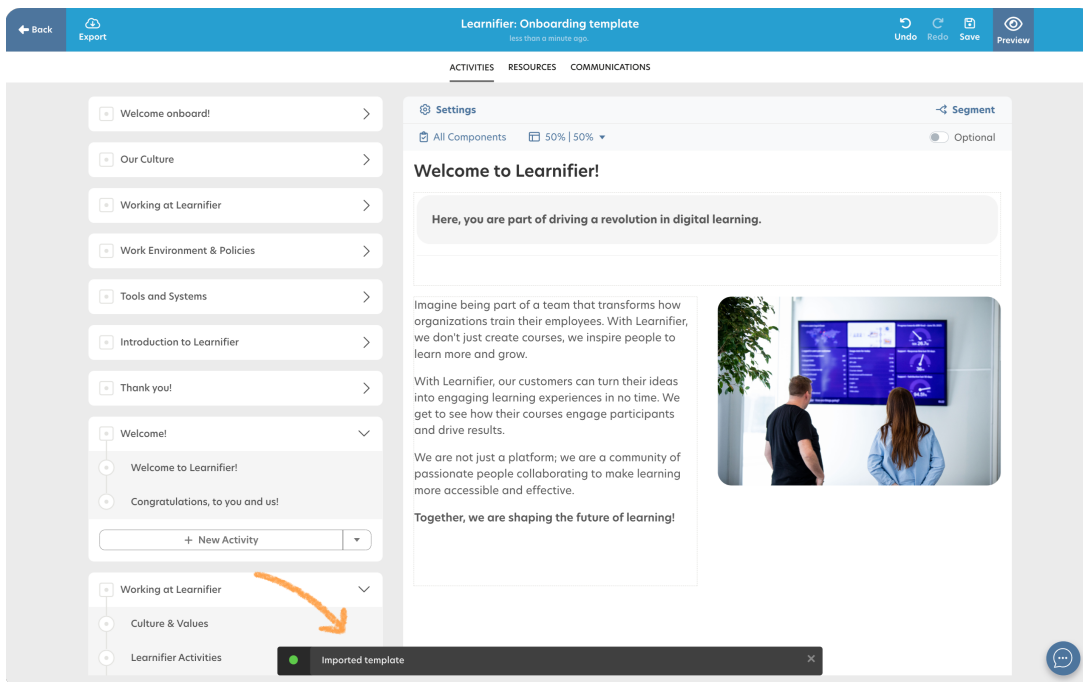

Welcome onboard!

1. Velg en kursmal å importere og bestem hvilket spesifikt innhold (Moduler/Aktiviteter, Ressurser og Kommunikasjon) du vil importere til din nåværende mal.

2. Trykk på "Importer" for å fullføre sammenslåingsprosessen.

1. Det valgte kursmaterialet vil nå bli importert til din valgte kursmal.

Merk:

For å sikre at de automatiserte kommunikasjonsreglene forblir koblet til kurset, må de importeres samtidig med kursinnholdet. Ellers må du koble dem til de relevante modulene eller aktivitetene manuelt etterpå. Hvis de automatiserte kommunikasjonsreglene vises "frakoblet" etter en import, må du kontrollere at kursbyggeren har blitt lagret før du bytter til autocom-fanen. Eventuelle endringer som gjøres i en mal vil ikke påvirke den andre etter

sammenslåing.
