

Sosiale funksjoner

Ester Andersson - 2024-07-29 - Funksjoner

"Social Features" er en flott funksjon hvis du ønsker at deltakerne skal kunne samhandle med hverandre. Den finnes under fanen "Settings" i prosjektmenyen.

Hvis du har sosiale funksjoner aktivert (ON), vil følgende skje:

- En deltakerliste under fanen "Intro" i et kurs vil vises for alle deltakerne.

- Et diskusjonsforum med navnet "Share your thoughts" vil vises under alle aktivitetene i et kurs der deltakerne vil kunne skrive kommentarer.

Thank you! >

That said, it's where you build your course!

The resources tab. Here you can add content that you want to use as reference material or material that you think may be of interest to the participants. You can set an automation for when the resource will be available to the participant and also mark the resource so that it can be filtered out in searches.

The settings tab. This is where you set a course image. Tip: A good course image should capture the participant's attention and help him understand the essence of what the course has to offer. The course image is displayed in the course catalog and on the "My courses" page.

Innstillinger for sosiale funksjoner

Du kan aktivere eller deaktivere sosiale funksjoner i prosjektinnstillingene.

Discussion notifications

Når sosiale funksjoner er aktivert, vil du også finne alternativet for å konfigurere varsler.

Ved å aktivere "Discussion notifications" vil deltakerne motta daglige e-postmeldinger som oppsummerer nye kommentarer.
