Hvordan aktivere Teamtailor-integrasjonen

1. Gå til "Innstillinger" og "API" i administratorgrensesnittet. Klikk på aktiver og kopier API-nøkkelen.

The screenshot shows the Learnifier admin interface. At the top, there is a navigation bar with the Learnifier logo and menu items: Dashboard, Projects, Users, Library, Reports, Automations, and Settings. On the right side of the navigation bar, there are icons for 'Go To', search, notifications, chat, and a user profile for Ester.

The main content area is titled 'API Endpoints'. It displays two endpoints:
The API endpoint is: <https://demo.learnifier.se/api/v1/>
The API orgunit endpoint is: <https://demo.learnifier.se/api/v1/orgunits/898>

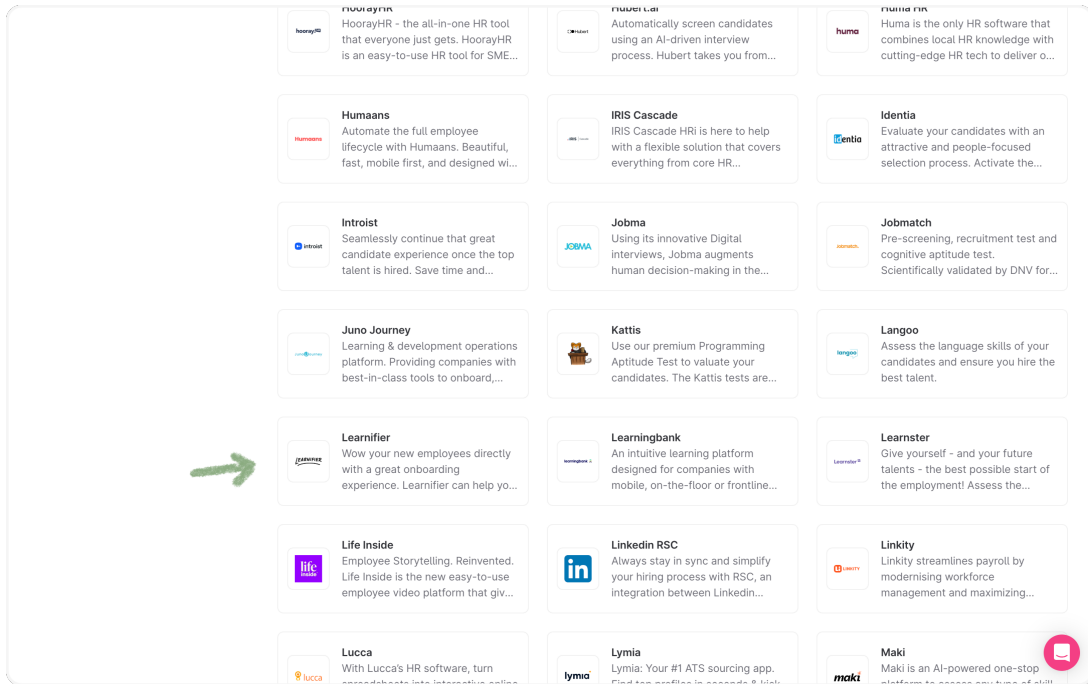

Below this, there is a section for 'API Keys'. It contains a table with one key:
Key: H3Luoyl2OFuJlDnZMxA5
Name: (empty)
Buttons: Delete, Show

There is an 'Add Key' button below the table.

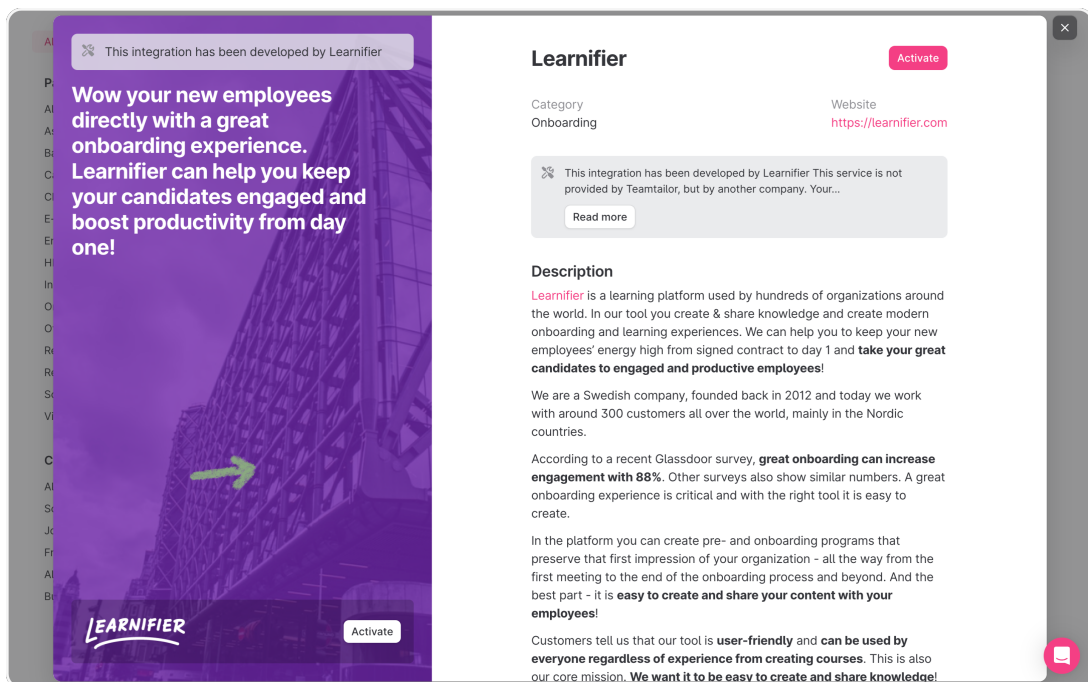

At the bottom of the main content area, there are two integration cards:

2. 'Sitevision integration' with a green icon, status 'Not active', and an 'Activate' button.

A chat icon is visible in the bottom right corner of the interface.
