Release Mar 14, 2024

2024-03-14 - Gabriella Eriksson - Release notes

Admin

- Adjusted our "soft delete" function to work better. It is now possible to set a date via API when a user will be “soft deleted.”
- Implemented a new config value for Swedish in admin. This means we can configure what admin language newly created admins should get.
- Fix: Video editor: the button to close it often did not work.
- Made tweaks to Waitlist settings texts to make functionality clearer.
- Prepared for more admin languages.
