

## Automatisk inskrivning vid kursavslut

Ester Andersson - 2024-02-15 - Funktioner

**“Auto-enrollment upon course completion” är en funktion som låter systemet automatiskt registrera en deltagare i en ny kurs när en annan kurs är Completed.**

1. Gå till den kurs som du vill att dina deltagare ska bli completed på, för att registreras i en annan.
2. Under "Next course", klicka på "Add next course". Välj den kurs som dina deltagare ska registreras i.
3. Skapa en “Automated communication” i nästa kurs för att låta systemet automatiskt skicka ett välkomst-e-postmeddelande till alla registrerade deltagare (inte obligatoriskt).

The screenshot shows the Learnifier course management interface for a course titled "Introduction to Learnifier". The course is currently in an "Ongoing" status. The interface includes a navigation menu at the top with options like Dashboard, Projects, Users, Library, Reports, Automations, and Settings. Below the navigation, there are tabs for Overview, Participants, Waitlist, Course Page, Events, Assignments, Details, Communications, Reports, and Settings. The main content area displays course details, including creation and update dates, and buttons for editing, previewing, deleting, and copying the course. A "9 participants" section shows a progress chart with 9 participants, broken down into 5 Not Started, 3 In Progress, and 1 Completed. A "Next Course" section is highlighted with a green arrow, showing an "Add Next Course" button. Other sections include "Awards", "Project Team", and "Announcements".
