

Automatisk inbjudan vid genomförd kurs

Ester Andersson - 2024-10-27 - Funktioner

“Auto-enrollment upon course completion” är en funktion som låter systemet automatiskt registrera en deltagare i en ny kurs när en annan kurs är Completed.

1. Gå till den kurs som du vill att dina deltagare genomföra för att sedan bjudas in till en annan kurs.
2. Under "Next course", klicka på "Add next course". Välj den kurs som dina deltagare ska bjudas in till.
3. Skapa en "[Automated communication](#)" i nästa kurs för att låta systemet automatiskt skicka ett välkomst-e-postmeddelande till alla registrerade deltagare (inte obligatoriskt).
4. Nu har dina deltagare tillgång till kursen!

The screenshot shows the Learnifier course management interface for a course titled "Introduction to Learnifier". The course is currently in an "Ongoing" status. The interface includes a navigation bar with options like Dashboard, Projects, Users, Library, Reports, Automations, and Settings. Below the course title, there are buttons for "Edit course", "Preview", "Delete", and "Copy".

The main content area is divided into several sections:

- 9 participants:** A summary section showing the number of participants and their status. It includes a circular progress indicator with the number 9. Below it, there are icons and counts for various participant statuses: Not Started (5), In Progress (3), Completed (1), On Track (9), Overdue (0), Not Invited (0), Bounce Backs (0), and Project Errors (0).
- Awards:** A section for attaching a diploma or certificate to the course. It includes an "Attach" button.
- Next Course:** A section for automatically enrolling learners that have completed this course into the following Next Course. It includes an "Add Next Course" button. A green arrow points to this section.
- Project Team:** A section for adding team members to the project. It includes an "Add Team Member" button.
- Announcements:** A section for adding announcements to the course.

At the bottom, there is a "Discussions" section with a "Share your thoughts" input field and a "Post" button.
